It's FUN! It's educational! It's puzzling!  
It combines history, nature, collecting & community!!

# It's GEOCACHING!!!

Hurst Public Library's Adult Services Librarian **Jennifer Ohnstad** is part of a 2-person geocach team & has been caching for about 3 years. She became interested in the activity due to puzzle caches – some of which are based on the Dewey Decimal System! While not a geocacher herself, HPL's Program Coordinator / Reference Librarian **Chantele Hancock** is always looking for programming ideas and immediately saw program value in geocaching. Together they created HPL's 2011 Geocaching Program Series which won the **Texas Geocaching Assn.'s NTX Cacher Award** for Best Series.

Both trainers for this event love the fact that geocaching provides a sense of community, introductions to new & offbeat places and – for libraries, museums, and many other institutions – some new and imaginative programming opportunities. Join us to learn more!
